OUTLINES.

The Associated Pres correspondent yesterday ventured up on Mount Vesuvius and interviewed Professor Mateuc ci, director of the Royal Observatory, who with an American assistant, stuck to his post during the terrifying eruption which began last Sunday morning at 3 o'clock; it was a veritable hell, the Professor says, and amid earthquakes, blinding electricity, roaring and terrific explositions, the crater threw huge stones to a height of 2,500 feet——A New York paper yesterday published a story that the woman accompanying Maxim Gorky, the Russian novelist, is Madame Andreieva, an actress, and not his wife, but Gorky denounces it as a base calumny; a St. Petersburg cablegram shows that Gorky is putting up a big bluff, as he left his wife and children in Russia——On Friday in the Caribbean sea where the Atlantic fleet has been at target practice, a frightful explosion occurred on the battleship Kearsarge, killing Lieutenant Hudgins and five men, and probably fatally injuring Lieutenant Greame and several injuring several seamen——President Roosevelt yesterday delivered the address at the laying of the cornerstone of the handsome office building for the House of Representatives at Washington——At Springfield, Mo., last night two negroes were taken from jail hanged and burned on suspicion of criminally assaulting a young lady but they are believed to have been innocent——There was a more violent earthquake in Formosa yesterday than the quake of last month; it is believed that the loss of life and property is enormous—New York markets Money on call nominal, no loans, time loans steady; cotton market, holiday; flour quiet but firm; wheat unsettled; No. 2 red, 90 nominal elevator; corn quiet; No. 2, 56 nominal elevator; oats steady mixed, 37 to 37 1-2; turpentine steady 69 to 69 1-2; rosin steady, strained common to good, 4.00 to 4.05.

The campaign semes to be starting up in South Carolina. Exit Georgia.

"The man with the muck rake'?!! Oh, yes—the knockers who don't knock to suit President Roosevelt.

"What has become of the $1,151,589.80 which Greene and Gaynor stole from the Government?" asks a contemporary. Go to, now! Search their lawyers.

It is now given out since Mr. Carnegie's kissing episode in Atlanta that he doesn't propose to kiss the pretty ladies everywhere he goes. N. B.—Does Mr. Carnegie want a substitute?

Isn't it possible that some North Carolinian was the last man to look into the crater of Vesuvius just before the eruption and barely had time to beat a stream of lava to the bottom of the mountain?

You have just thirteen days, leaving out two Sundays, in which to pay your poll-tax. If it is not paid by May 1st, you cannot vote in the election in November. Pay your tax and tell your neighbor about it. The tax has to be paid anyhow, whether you vote or not.

Says the Charleston News and Courier: "President Gompers of the American Federation of Labor has announced that it is the policy of his organization to go into politics in an active way." Gee! What we need is for them to go into it in a retroative way. That is quit voting the Republican ticket for "protection for labor" and then having to strike for their share of it.

Among the Russian novelist-revolutionist's "inquiring friends" is the Norfolk Landmark which asks: "Hold on, Mr. Gorky; one little preliminary! Who is the lady who accompanies you? You will have to explain this sooner or later—why not at once?" Some folks never stop to think that questions like that are liable to make Gorky send in his application at once for membership in the "refuse to answer" class.

THE SUPERIOR COURT

First Week of Civil Term Completed Yesterday With Unimportant Cases

REMBERT TRIAL TO-MORROW

Another Damage Suit Against Consolidated Company—Two Matters Set For Days During May Term —Jurors For This Week.

Superior Court was in session less than an hour yesterday. The few cases on the docket were of no importance and even those set for trial were not reached. The tales jurors summoned for the day were returned by the sheriff but they were promptly discharged. They were as follows: J. R. Elmore, T. K. Curtis, Walker Taylor, Jno. S. Armstrong, C. W. Worth, Thos. B. Oldham, W. P. Cline, D. M. McIntosh, W. L. Bissinger, Jno. J. Fowler, H. W. Malloy, Leon George, Jesse E. Smith, W. H. Brown, F. M. Bryant and White O. Brown.

The only case tried during the day was a divorce proceeding entitled J. H. Sanderson against Madge Sanderson, white. The evidence was conclusive and judgment absolute for divorce was given the plaintiff.

The case of Mr. Charles D. Willson against the Atlantic Coast Line Railroad Company, a damage suit for personal injuries, which could not be reached on the day it was set has been called up and set for the first case on the first day of the next term which convenes on Monday, May 28th.

The case of Wm. J. Hart, et al. against the Wilmington Grocery Co., was also called up yesterday and set for the first case on the second Monday of the next term.

To-morrow morning the court will enter upon the trial of Willie Rembert against the Consolidated Company in which the plaintiff is suing for alleged personal and permanent injuries sustained about three years ago as the result of the falling of the network of overhead trolley wires at the Front and Princess street junction. The city cars had just met there and a suburban car bound for the beach slipped a trolley as it was passing out the switch from the junction, pulling down the wires. Mr. Rembert, a barber on South Front street, was a passenger on one of the city cars and in transferring at the junction he alleges that he came in contact with a live wire or some part of the car which acted as a conductor of electricity and he was knocked down, sustaining painful injuries. Herbert McClammy, Esq., appears for the plaintiff and Messrs. Davis and Davis and Bellamy & Bellamy will represent the Consolidated Company. A model of the car and a miniature of the tracks, etc. at Front and Princess streets has been made and will be offered in evidence by the company. It is expected that the trial will last several days.

The jurors summoned for this week are as follows: George E. Leftwitch, S. P. Cowan, W. A. Branch, Wm. D. Hall, W. R. Appleberry, W. A. Wilson, John H. Sweeney, L. G. Davis, Jr., Wm. L. Benson, Robert C. Cantwell, E. T. Huggins, J. P. Sumner, P. Pearsall, F. S. DuPre, John P. Quelch, S. W. Aman, W. J. Bergen and J. W. Freeman.

Judge W. R. Allen who is presiding at the present term of the court, left last night for Goldsboro to spend Easter Sunday at home.

THE CONGESTION OF FREIGHT

Complaints Pouring Into Corporation Commission at Raleigh—One From Wilmington—The National Guard.

(Special Star Correspondence.)

Raleigh, N. C., April 14.—An unusually large number of complaints are coming in to the North Carolina Corporation Commission as to delays in the movement of freights by the railroad companies in all parts of the State and the only plausible explanation of the situation is that the freight shipments are increasing to such a phenomenal degree that the roads in many instances find themselves absolutely unable to move the freight as fast as it is tendered by the shippers.

As an illustration of these complaints there was one this morning from a wholesale merchant in Wilmington who had delivered to the Seaboard Air Line at Wilmington a shipment including barrels of sugar and other groceries for which Lumberton was the destination. This was March 27th and the goods did not reach Lumberton until April 7th being thirteen days in transit to a point less than seventy-five miles with direct connection. The last Legislature passed an act prescribing that railroads shall be allowed four days within which to deliver freights to destinations within 100 miles. For the fifth day a fine of $25 is prescribed and $5 for each additional day's delay. The only way the railroads can avoid the payment of these fines is to come into court and plead an unavoidable congestion of freight for which they are not to blame.

The statement was made in the office of the commission today that the railroads are paying out large amounts in these forfeitures, the settlements being reached with the individual shippers outside the courts. This would indicate that the railroads are simply overwhelmed with the volume of freight being offered for transportation.

Governor Glenn returned this morning from Washington where he says he effected the preliminary settlement of the differences betwen the accounts of the United States War Department and the North Carolina National Guard that will result in the saving of several thousand dollars to the North Carolina Guard.

OFF TO JACKSONVILLE, FLA.

Southern Wholesale Grocers Meet In That City Tuesday.

To-morrow afternoon a party of prominent Wilmington jobbers will leave on the Southern train for Jacksonville, Fla., to attend the annual meeting of the Southern Wholesale Grocers' Association which will be held in that city on Tuesday, Wednesday and Thursday of this week. In the party will be Messrs. L. B. Rogers, H. L. Vollers, F. E. Hashagen, R. R. Stone, E. I. Bear, Oscar Pearsall and G. C. Harmon, of T. S. Southgate & Co. The members of the party are looking forward with much pleasure to the meeting. It will be one of the largest conventions of the Association ever held and the city of Jacksonville is laying elaborate plans for the entertainment of the visitors. A number of important matters to the grocery trade will come up for consideration at the meeting.

MR. JNO. BATSON TO WED.

Will Claim Fair Bride in Kinston This Morning

Friends in this city of Mr. John W. Batson will be interested and pleased to know that at the home of the bride's mother, Mrs. G. C. Ferrell, in Kinston, N. C., this morning at 9:30 o'clock, he will wed Miss Christian Mae Tilghman, an attractive young lady of that city who has many friends in Wilmington where she has visited several times. It will be a quiet home wedding, immediately after which the bride and groom will leave on the 10:22 A. M. train for Concord, N. C., to spend their honeymoon with the groom's sister, Mrs. R. H. Herring. They will be away two weeks, returning to Wilmington to live.

Mr. John T. Slaughter, Jr., a personal friend of Mr. Batson, will go up to Goldsboro this morning to meet the bridal party, having been unexpectedly detained yesterday so that he could not attend as best man as originally planned.

Wilmington Suburban Co.

Attention is called to the large advertisement of the Wilmington Suburban Company, which will be found in another column. The company recently bought a large tract of land in the southern part of the city from the C. H. Bulkley estate, and is now offering the same for sale in small building lots, ranging in price from $40 to $150 on the easy payment plan. The land also contains a number of valuable manufacturing sites. Mr. James Owen Reilly has charge of the sale of the lots and plats and descriptions may be seen from him.

COUNTY PRIMARIES

Democratic Executive Committee All at Sea Over Provisions of New Law

JAS. H. BURRISS CHAIRMAN

Fifth Ward Member Selected to Succeed George L. Peschau, Esq.—Messrs. C. C. Covington and B. C. Moore to Fill Vacancies.

The legalized primary law as adopted by the last Legislature has put members of the Democratic County Executive Committee all at sea as to exactly what is required of them in the appointment of delegates to the several conventions which meet before the time when it is lawful for the primaries to be held. This developed yesterday afternoon at the called meeting which was held at 3 o'clock in the grand jury room at the Court House. The law prescribes "that every political primary election held by any political party or organization for the selection of candidates for either branch of the General Assembly, or for county, city, town or township offices; for selecting and instructing delegates to county conventions; for the election of county or city executive committees, or for one or all of such purposes, shall be held and conducted in the manner hereinafter set forth, etc.," and then further on it expressly provides that no primary shall be held nearer than 30 days of the general election nor more than 60 days distant therefrom. As the election will not be held until Nov. 6th, the primary cannot be held earlier than Sept. 6th. That will manifestly be too late to select delegates to the State, Senatorial, Judicial or Congressional Conventions or to a county convention for the appointment of these delegates. The question with the committee now is, can the party go outside the law and call its primary for the selection of delegates only earlier than the date prescribed in the law.

At the meeting yesterday it was suggested that ward and township meetings might be held for the selection of delegates as was formerly done, but members desired to be within the law and decided to adjourn subject to call of the chairman until legal advice can be sought on the question. The adjourned meeting will probably be held on Wednesday afternoon of this week.

The meeting yesterday was called to order and Mr. D. J. Fergus, of Masonboro, was called to the chair. Mr. Wm. A. Willson was present as secretary, and other members in attendance were Messrs. W. F. Carpenter, first ward; J. H. Burriss and C. S. Burnett, fifth ward; W. H. Shearin, Cape Fear township, and Gerritt Walker, Harnett township. Mr. Fergus represented Masonboro and Federal Point and Mr. Willson, the fourth ward.

The resignation of Chairman George L. Peschau was first read and accepted with expressions of regret. Mr. Walker offered a resolution speaking in high terms of Mr. Peschau's service and loyalty to the party and testifying to his qualities as a gentleman and a companion, regretting that his removal to another county made his resignation necessary. The resolution was unanimously adopted.

Mr. Fergus, the temporary chairman, ruled that before any vacancies on the committee were filled a permanent chairman would have to be elected. Several members took issue with him on that point but the temporary chairman was unmoved in his position and upon motion of Mr. Burnett, seconded by Mr. Shearin, Mr. James H. Burriss was unanimously elected permanent chairman and took his seat as such.

The vacancy as a member of the committee from the third ward, caused by the resignation of Mr. Peschau, was filled by the election of Mr. C. C. Covington in his stead, the chairman, by instruction of the committee, casting the unanimous vote for Mr. Covington.

Mr. B. C. Moore was unanimously elected from the first ward to fill the vacancy caused by the removal of Mr. E. F. Lewis from the city.

Mr. Willson offered a resolution conferring upon the chairman the power to act upon all unimportant matters during the interim of committee meetings, but Mr. Walker and others opposed this as being contrary to Democratic government and the resolution sel was sought upon the question, he had retired. Mr. Carpenter made a motion that County Treasurer Green, who was in the building, be invited in but when he was sent for he had left the Court House. It was then decided to adjourn subject to call of the chairman, unbiased legal advice to be sought in the meantime. Chairman Burriss then stated that he would probably call the meeting for the following Wednesday afternoon.

LAY THE CORNER-STONE.

Imposing Ceremonies Will Mark Culmination of Important Work by Colonial Dames in This City.

Imposing and altogether pleasing ceremonies will this week mark the laying of the corner-stone of a handsome monument by the North Carolina Society of the Colonial Dames at Fourth and Market streets. With reference to the exercises the Star has been furnished with the following for publication:

"On next Friday, the 20th of April, the interesting and important ceremony of laying the corner-stone of the Colonial Monument, at the inter-section of Market street and Fourth street, is to take place at 10 o'clock, A. M.

The Colonial Dames Society of North Carolina has undertaken this patriotic memorial of the brave deeds of the men of the Lower Cape Fear to whose self sacrifice and heroic achievements we owe our birth-right. The dignity of this impressive scene will be enhanced by the presence of the Society of the Cincinnati, and the Grand Lodge of Masons of North Carolina. The added attendance of St. John's Lodge, Wilmington Lodge and Orient Lodge in full regalia, the oration by Col A. M. Waddell, and the address by Grand Master Lieut. Governor Francis D. Winston, should attract a large number of our citizens as witnesses to a notable event in the history of Wilmington."

The Star is requested by the Society of Colonial Dames to extend a cordial invitation to all of the people to be present at the place and time mentioned.

SEASON OF THE BERRY.

Few Shipments By Express—Pickers and Buyers Gathering.

The movement of strawberries by Express will begin this week and before the end of another seven days good shipments will probably be going forward from this territory by the car load. Two crates were shipped yesterday from Chadbourn and a few from a number of other points in the belt. Those at Chadbourn are reported to have brought $9 for the 32 quarts. Buyers are already swarming the territory and pickers are beginning to take themselves to the fields. All local trains traversing the belt are reported to have handled many pickers to the several central points yesterday.

The transportation people, in spite of the congestion of all freights, are reported to be clearing the line for the berry crop and yellow cars are said to be in evidence all along the railroad from the Potomac to the Cape Fear river. Those who have had occasion to observe say that the transportation people have no desire to repeat the experience of last season and that from the outlook, there will be no shortage of cars for at least some time to come.

EARLY TRAIN TOMORROW

Seaboard's 4:30 Train Will Go Out for First Time in the Morning.

The early morning train on the Seaboard Air Line starts to-morrow and not to-day as were the official reports first given out. This will be the train to leave in the morning at 4:30 o'clock. This train will reach Hamlet at 8:40 o'clock. Monroe at 10.50 o'clock and Charlotte at 11:50 o'clock. A wait will be given in Charlotte until 3:15 o'clock in the afternoon when the train will leave on its way to Ruotherfordton and it is scheduled to reach its destination at 8 o'clock. On the return in the morning the train will reach Charlotte at 10:18 A. M. The train will remain in Charlotte until 5 P. M., when it will leave, arriving at Wilmington at 11:59 at night.

The train connects at Hamlet with trains North, South and West. For the present no arrangements have been made for a Sunday mail on this train but if patrons of the offices along the line of the road desire this service, the Department will undoubtedly be glad to give the same if request is made by the patrons through their respective postmasters.

War! War! War!

Forty two years ago our land was being devastated by a fratricidal war, and what is now Carolina Place was being thrown up and scarred by intrenchments for the protection of an army engaged in bloody conflict against the invading foe. But now how changed the scene! The army of laborers now equally busy on the same spot, are filling up the intrenchments, grading streets, running water pipes and laying side walks, preparatory to making the lots in Carolina Place the sites of peaceful and happy homes. Good building lots are going at $200 to $275—only $10 cash and $5.00 to $7.50 per month. No interest. Have you bought yet? If not do not lose another day, but buy at once while the best lots are selling. apr17-tf**

POPULATION IS 32,000

Official Report of Postoffice Carrier Service Indicates That Number of People

RAPID GROWTH OF THE CITY

Extension of Free Delivery Territory and Additional Men Will Be Asked —Business in the Office Increases 200 Per Cent.

From an official report to the Department of the number of people served by carrier through the Wilmington postoffice, it is conservatively estimated that the bona fide population of the city proper is now between 31,000 and 32,000.

It is required of postmasters that they send to the Department each year an annual report as to the number of patrons served with mail from the postoffice by carrier. All carriers keep directories of their respective routes and make note of all changes, removal, etc., fro time to time, so that these statistics are always available and, in the nature of the case, are absolutely accurate and reliable. The annual report as to the service through the Wilmington postoffice has just been formulated by Postmaster Thos. E. Wallace and the same will be forwarded officially to Washington in a day or two. The estimated population as served by the city carriers is 29,028. This, however, is not the population of Wilmington as the confines of the free delivery system does was not pressed.

A discussion of the matter of the primary then ensued and no two of the committeemen placed the same construction upon the law, which was read by Secretary Willson. Woodus Kellum, Esq., was present at the opening of the meeting but when his count not include all within the city limits. Those in the extreme districts are not served by carriers, therefore, according to a mathematical calculation, very conservatively put, it is estimated that the entire population will reach 32,000 or over.

The showing is really an excellent one and is a splendid illustration of the wonderful growth of the city. A little while ago Mr. Hugh MacRae, one of the most observant of men, gave the prophetic utterance that within ten years the population of Wilmington would be doubled. Thus far all the figures have borne out the statement. The last census six years ago gave the city a population of 20,976. Now by the reports of the postoffice carrier service, it is seen that within the six years the population has increased more than 50 per cent. or at the rate of over 100 per cent. for ten years.

Upon the stength of the very fine showing made in this annual report, Postmaster Wallace will ask the Department for two and, perhaps, three additional carriers and an extension of the free delivery service, which is required by the number of houses recently built and now being built in the outlying districts. This new territory to be included will be immediately contiguous to the present limits. It is hoped and Postmaster Wallace has every reason to believe that the extra service will be granted.

There are also reliable statistics to support the statement that the business handled in the postoffice proper has increased more than 100 per cent. in volume within six years. While the force of clerks has been doubled within that period the volume of matter handled has increased beyond that proportion and it is found now that the mails cannot be handled with near the facility and dispatch with which the former business was handled with the reduced force. In fact, the volume of business has increased nearer 200 per cent. than 100 per cent. Upon this representation Postmaster Wallace will also ask that the Department furnish one and perhaps two additional clerks in the office for the better dispatch of business.

Adverting again to the carrier service it will be of interest to know that there are now a total of 11 carriers at the postoffice, three of whom are "mounted," or, in other words make their rounds in vehicles. These serve a square mile area of 2.95 out of 3.3 square miles included in the city limits according to county records. Three deliveries are made daily in the business district and three in the residence section. Five collections are made daily in the business district and four in the residence sections. The number of letter boxes is 73 in addition to the bundle depository at Fentress' drug store on North Fourth street.

"HARD TO KEEP UP WITH THE SIGNALS."

The Star's Washington dispatches yesterday announced that President Roosevelt's latest position on the railway rate bill is that either the amendment of Senator Simmons, of North Carolina, or that of Senator Malory, of Forida, should be attached to the bill. Evidently the President is willing to take either one of those amendments if he cannot get the Roosevelt-Long amendment which was agreed upon early last week in a conference at the White House. In all his shifting of positions on the rate bill—first taking the uncompromising position that no amendment whatever would be accepted, and then coming around to several different amendments at different times—it is clear that the President is in desperate straits to get some sort of a bill. His party has failed to stand up to him, and the truth of the business is that Mr. Roosevelt is trying to make the most of an almost hopeless case. The Baltimore Sun says:

"Perhaps it would be well for the Congressional Record to issue frequent 'extras' showing the exact attitude at that particular moment of President Roosevelt on railway-rate legislation. This would likely require a good many editions, but by the use of red-ink 'fudge' and a stop-watch the feat might be accomplished. Mr. Roosevelt has been quoted approvingly by every side and all sides at one time or another in this controversy—for and against court review, for all the different kinds of court review; for the Hepburn bill without change; for amendments, some of which bear the approving seal of the Presidential signet ring; for a straightout Republican party line-up, with compromise attachments, and for a deal with the Democrats, with absolutely no compromise on earth except a few that yield what the railroads are contending for. These rapid changes in the great 'Light That Never Fails' keep the faithful 'on the jump,' so to speak, to keep up with the signals from the White House watch-tower."

The Sun editor wrote that before seeing the dispatch announcing that President Roosevelt had committed himself to Simmons and Malory, but it is hard to tell whether the President is vacillating or despairing.

In connection with the rate bill we get this contribution from the New York Times:

"The junior Roosevelt organ is informed from Washington that Mr. Roosevelt's colleague, Mr. Tillman, (Dem., S. C.,) can contribute twenty-eight Democratic votes to railway rate regulation, and thinks that Mr. Roosevelt ought to be able to contribute twenty Republicans. This expectation of a minority contribution to the partnership from the majority party is moderation itself. If the Republicans are unable to contribute a majority of the votes, it is fair that they should surrender control of the bill and admit that it is a Democratic plank, which the Republicans always disapproved, and which is as difficult to steal, or do anything felonious with, as a red-hot stove. It would be both easier and more prudent to do this than to show that there is anything Republican about the proposal to oust the courts from control of any topic which belongs to the courts. The idea that Mr. Tillman and Mr. Roosevelt are wiser and more Republican than the majority of the Republicans following Knox, Foraker, Spooner, Elkins and Crane is a non sequitur which is the only logical result of the Presidential railway campaign."

The action of the Republican Senators shows that they do not care to help President Roosevelt carry off stolen property that bears the Democratic tag, and while the Democrats knew that something of theirs had been taken, they are trying their best to help the President to land it. The situation is exceedingly curious if not funny.

GIRLS SET THE PACE.

We do not concede that the English girl is superior to the American girl but what Dr. Winnington-Jugram remarks with reference to the English girl will apply to the American girl. The Doctor in addressing the Girls' Diocesan Association in London the other day, said that there were three reasons why the English girl is superior to her foreign sisters, which, according to the report of the address in The London Express, were as follows:

"It is to the sister that a boy turns in trouble and the whole world would be disappointed if it went to girls and found them without faith.

"Secondly, the world looks to my hearers to find hope in them. Hope is one of the strongest influences in the world, and hopeful people can change life for many men and women. Closely connected with hope is purity of character. If a girl fails that boy at home to whom she is impeccable, or that man to whom she is the ideal of what a woman should be, then crash goes all their hope and strength and inspiration.'

"Thirdly, girls, concluded the Bishop were looked to to produce the fruits the unattractive and the ugly, and of love—the love which would take in which would brave sordid surroundings."

From the above it will be seen what a splendid opportunity girls have to make model men of their brothers. The boys, however, shouldn't forget to show their sisters how, gentlemanly a brother can always be.

"DOMESTIC IMPERIALISM"

Under he above heading the London Truth makes the following remarks:

"The woman of the day has become reckless; the lever has been moved to 'full speed, forward,' regardless of consequences. It is millions she requires; it is a quick journey from the suburbs to St. James's, with few stops on the way, and the ordinary man is not in a position to travel the distance and at the speed. He speculates, peculates, abandons principle after principle, becomes entangled in difficulties, and detached from his habits and consequently from his home. A few succeed, but they are not happy; many fail, and they are wretched! It is 'imperialism' in private life, and the collapse caused by the one form of this must occur from the other."

From the above, American readers can learn two things. One that all the world is in the push to "make a good showing" and is after the money with which to do so. Another is that our British cousins have adopted the good old Democratic word "imperialism" and applied it to social conditions. It will be noticed that the London paper also describes "domestic imperialism" as it is also to be seen in America.

They Stand Alone.

Standing out in bold relief, *all alone*, and as a conspicuous example of open, frank and honest dealing with the sick and afflicted, are Dr. Pierce's Favorite Prescription for weak, over-worked, debilitated, nervous, "run-down," pain-racked women, and Dr. Pierce's Golden Medical Discovery, the famous remedy for weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness, all catarrhal affections whether of the stomach, bowels, kidneys, bladder, nasal passages, throat, bronchia, or other mucous passages, also as an effective remedy for all diseases arising from thin, watery or impure blood, as scrofulous and skin affections.

Each bottle of the above medicines bears upon its wrapper a badge of honesty in the full list of ingredients composing it—*printed in plain English*. This frank and open publicity places these medicines *in a class all by themselves*, and is the best guaranty of their merits. They cannot be classed as patent nor secret medicines for they are neither —*being of known composition*.

Dr. Pierce feels that he can afford to take the afflicted into his full confidence and lay all the ingredients of his medicines freely before them because these ingredients are such as are endorsed and most strongly praised by scores of the most eminent medical writers as cures for the diseases for which these medicines are recommended. Therefore, the afflicted do not have to rely alone upon Dr. Pierce's recommendation as to the curative value of his medicines for certain easily recognized diseases.

A glance at the printed formula on each bottle will show that no alcohol and no harmful or habit-forming drugs enter into Dr. Pierce's medicines, they being wholly compounded of glyceric extracts of the roots of native, American forest plants. These are best and safest for the cure of most lingering, chronic diseases. Dr. R. V. Pierce can be consulted FREE, by addressing him at Buffalo, N. Y., and all communications are regarded as sacredly confidential.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.

"CAME VERY NEAR SAYING THE BEST."

(Mt. Olive Tribune.)

The Morning Star, of Wilmington, appeared last Tuesday morning in enlarged and improved form, the pages having been reduced somewhat in size but increased from four to eight pages. A new and modern press and a folding machine with trimmer and paster attachments have been added to the Star's mechanical department in order to supply its subscribers with a larger paper and accommodate the increased demand for advertising. The Star is the oldest daily paper in the State, and—well, we came very near saying the best. We have been accustomed to the Star's time-honored form and make-up all our life, and we give it up reluctantly, rejoicing however that increased prosperity made the change necessary.

CURRENT COMMENT.

—In his "Muck Rake" speech the President will probably call a spade a spade.—New York Mail.

—There is good hope that reason and peace may rule in the hard-coal controversy.—Pittsburg Post.

—The New York Mail calls it "the Vesuvian palimpset." It was bad enough as it was.—Baltimore Sun.

—The mighty White House shearer who went out for Senatorial wool seems to be returning shorn.—Atlanta Constitution.

—That married woman who made a balloon ascension with her husband will now know how it feels to be blown up.—Baltimore Sun.

—There was a time when the wicked and unregenerate regarded Mr. Roosevelt as something of a muck-raker himself.—New York World.

—See that someone has already written two acts of a new play called "The Wedding in the White House." There are some things in life that almost reconcile one to the existence of the Black Hand—New York Evening Telegram.

—What with the combined vigilance of a yellow press, the yellow magazines and the yellow pulpit, a man in public life must needs possess not alone the consciousness of restidude, but the hide of a rhinoceros.—Providence Journal.

—France has settled the question of what to do with her ex-presidents by making M. Loubet an adviser on the railway question. In this country a president does not have to wait until he is an "ex" before serving in that role.—Washington Post.

—Bellamy Storer was removed from his post as United States Ambassador to Austria by the President because Mrs. Storer was too active in Church matters. In explaining her connection with the affair Mrs. Storer quoted a letter she had received from Mr. Roosevelt in 1900, when he was Governor of New York, which letter was written, she explained, that she might show it to Cardinal Rampolla, then Papal Secretary of State, "in order to convince the Vatican of the friendly attitude of Americans towards Archbishop's Ireland's policies. It was all done to help our Government in its relations with the Philippines." The Chicago Public is of the opinion that "this is probably the most scandalous politico-ecclesiastical affair in American history." It would appear to rank outsiders that Mrs. Storer has been more than a match for the President in their little passage at arms.—Charleston and Courier.

IT IS FOR LADIES, TOO.

They Can Stop Their Hair Falling Out With Herpicide.

Ladies who have thin hair and whose hair is falling out, can prevent the hair falling out, and thicken the growth, with Newbro's "Herpicide." Besides, Herpicide is one of the most agreeable hair dressings there is. Herpicide kills the dandruff germ that eats the hair off at the root. After the germ is destroyed, the root will shoot up, and the hair grow long as ever. Even a sample will convince any lady that Newbro's Herpicide is an indispensable toilet requisite. It contains no oil or grease, it will not stain or dye. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

SPIRITS TURPENTINE

—Governor Glenn will head the North Carolina delegates, which will be a strong one, at the hearing at Washington on the 25th instant, on the establishment of the Appalachian forest reserve, this hearing to be before the House committee.

—Winston Republican: Uncle Jimmy Young, living out near Bowden's Crater, has trapped 19 minks the past winter, for the skins of which he has already collected over fifty-six dollars. This is what we call a good "sideline" to the real Box Mountain manner of living.

—The plucky colored janitor of a building in Raleigh, who one evening this week saved the life of a little child from death under the heels of a runaway horse, has been given $130, the purse having been made up by a number of citizens. It is the second case of life-saving this man has done.

—Charlotte Observer: Capt. S. B. Alexander has sold to Mr. R. G. Brice 87 3-4 acres of very fine farming land out three miles from the city on the Tuckaseege Ford road, the consideration being $87.50 per acre or a total sum of $7,503. This land is very desirable being especially adapted to fiine trucking if desired for such purpose.

—Mr. James Cheatham died in Lovelace township, Wilkes county, a few days ago, after having passed the century mark. He was perhaps the oldest man in the State, and was, according to his own statement, about 104 years old. He was a soldier in the Cherokee war of 1837 and for several years drew a pension by reason of his service in that war.

—Some days ago Marshal Robert H. Bradley, of the Supreme Court, was operated upon at the hospital in Raleigh. His condition was quite good for a few days but Thursday night he took a bad turn. The operation was quite a severe one. His quarter of a century in the Supreme Court has been of the greatest value and North Carolina has never had a more faithful official.

—Lumberton correspondence: The county commissioners have re-elected Mr. W. G. Allen road supervisor for the county. Mr. Allen came here one year ago from Wake county, where he had been supervisor for a number of years, and took charge of the roads. His work here has given general satisfaction and it is gratifying to his numerous friends to know that he has been re-elected.

—Winston Republican: Geo. E. Nissen & Co., the well known wagon manufacturing firm of Waughton, this county, has received an order for seven heavy four-horse wagons, to be shipped to a party in Porto Rico. This is perhaps the first first order ever received by a North Carolina concern of this kind. The same firm is filling a nice order from Indian Territory.

—The bill for Moore's Creek battlefield to repair the monument and inclose the grounds was called up in the Senate on Wednesday by Senator Overman and passed. The bill has also been reported from the House committee by Mr. Thomas and is on the House calendar. The plan between Mr. Thomas and Senator Overman is either to pass the original bill introduced in both the Senate and the House and report from committees in both Senate and House, and also it is possible to put it on the armp appropriation bill. Mr. Thomas has pressed the matter strenuously and with Senator Overman's assistance he expects to secure the appropriation either in a separate bill or in the army bill.

—High Point special, Charlotte Observer, April 13: Seeing some mention in this morning's Charlotte Observer about a conference between a committee from the manufacturers of High Point and a committee from the brotherhood of locomotive engineers, from Spencer, in regard to the labor situation here, The Observer's correspondent has taken the paints to interview a number of the manufacturers to-day about this matter. The manufacturers all claim that a wrong impression has been made. One manufacturer admitted that the suggestion of a conference had been made, but that, after consultation, the manufacturers agreed that, while they had the highest regard for the brotherhood of engineers, it would be useless to hold any conference. So far as they are concerned, they have no question to settle.

—Winston-Salem special: The Southbound will connect with the Norfolk & Western here. The contractors have two "squads" at work on the first section. One force is at work immediately west of Columbia Heights, about one mile southeast of the city, and the other about a half mile further on the east side of Happy Hill. The squad at Columbia Heights is working north toward the Southern railroad and is just beginning a cut, which for a considerable distance, will be 12 feet deep. Across Salem creek will be constructed a trestle 73 feet high and 600 feet long. From Columbia Heights five tracks will extend north to the Southern railroad, a distance of fully one-fourth of a mile. Supt. N. A. Lewis, who is in charge of the laborers, has been advised by Pruden & Bennett, the contractors, that 60 or 65 mules with scrapers and an entire outfit would arrive to-day or to-morrow. Mr. Lewis states further that he is paying $1.25 per day for hands and is having no trouble in securing all he needs.

—The union men of Durham have decided to take the part of the locked-out men in High Point. Thursday night there was a meeting of the Central Labor Union at which time a collection was taken for the locked-out men and pledges were made for weekly help for an indefinite period. It is understood that the Durham union men decided to send as much as $50 each week and will send more if possible. Friday there was another meeting of the union, this time for the purpose of passing resolutions boycotting the goods manufactured by the High Point factories. These resolutions call on all union men and their sympathizers and supporters not to purchase any of the furniture made by the High Point factories until such time as there has been a settlement of the differences satisfactory to the workmen. Both meetings were largely attended by the members of the various unions. At a meeting Thursday night Luther L. Zink, of High Point, addressed the union men, telling of the troubles in High Point and reviewing the workingman's side of the controversy.

A Card to the Public.

The citizens of Wilmington are, one and all, invited to go out and take in the busy scenes now being enacted in Carolina Place.

The water mains are now being laid. The streets are being graded and the sidewalks are being rapidly put down—mile on mile of smooth granolithic walks—uniform and beautiful to walk upon all over the property. Many people are preparing to build and will soon add their quota to the busy scene. If you have not bought your lot in Carolina Place yet, do not lose another day, but go at once and attend to this important business. apr14-tf**

MAYOR'S COURT YESTERDAY.

Several Drunks Given Reckoning—White Woman to Leave Town.

The Mayor had not many cases before him in the municipal court yesterday, despite the fact that there was no session on Good Friday. Henry Bowers, a sailor man charged with being drunk and down, was allowed to go upon promise to go aboard his ship and stay there.

Frank Mumford, colored, drunk and down at Seventh and Chesnut streets was re-committed to the station house pending some investigation by the police.

Florence Lewis, a dissolute white woman who recently figured in the higher court in connection with a horse and buggy driven away from Orrell & Alexander's stables, was arraigned for being drunk and disorderly at Tenth and Market streets. She was given opportunity to leave town and will be escorted to the A. & Y. train for her departure this morning.

LOCAL PORT PARAGRAPHS.

British Schooner Arrived for Cargo—Sharpie Allen Here.

The British schooner Alexandra, 178 tons, Capt. LeBlanc, arrived yesterday from New York, light, for cargo of lumber from S. & W. H. Northrop, for Port- de-Paix, in the West Indies.

Capt. L. H. Young, formerly in the schooner Isaiah Hart, but now master of the schooner Catharine M. Monahan, is being cordially greeted by many friends in port. Capt. Young was one of the seven from the schooner Hart saved in the launch subsequently purchased by Capt. C. D. Maffitt and chistened the "Hart Saver."

The schooner J. C. Allen, Capt. Milliken, plying between Wilmington and Brunswick county points and which was reported as having sunk with all cargo on board last week, arrived last night. It was an error in regard to the sinking of the boat. She was caught on the bank at Shallotte and when the tide receded, she listed, partially filling with water but the damage to the cargo did not exceed $50. All the claims of damage were promptly settled and the boat arrived last night in good shape to Messrs. Brooks & Taylor.

in the gentle whirlpool of a pretty woman's smile, which is deepened and intensified when she finds that her husband or sweetheart has bought a lot in Carolina Place, the most beautiful and the only improved suburb about Wilmington. As the time is now short, it behooves the party of the first part to continue to smile upon the party of the second part, until he buys a lot in Carolina Place—reserving her frowns for his tardiness and neglect of duty should he fail to do so at once. Free carriages. Go!

A FAMINE IN GLOVES.

Easter Shoppers in a Flurry Over the Particular Kind.

Dry goods merchants report a famine in long silk gloves. This was appalling yesterday on the eve of Easter when the demand was great. But the gloves of the long kind were not to be had for love or money. Owing to the prevailing style of short sleeve waists this season, the long silk gloves were necessary to complete the Easter costume and many of the ladies were disappointed at not finding them at any of the dry goods or notion stores.

The short sleeve waists were first introduced early in the season and soon became a craze not only in Wilmington but everywhere else. The glove manufacturers did not anticipate so of the abbreviated sleeves and consequently there were not enough of the long gloves made to anything like meet the orders that poured into the factories from every merchant in the country. The ladies pleaded and the dry goods men importuned the makers but there was "nothing doing" and if many of the Easter costumes witnessed on the street to-day are minus the long silk gloves, don't blame the wearer and the dealers. The gloves were not to be had. The famine caused more talk among the ladies in the retail dry goods district yesterday than a famine of money would have caused in Wall street.

Justice Had No Jurisdiction.

Justice Bornemann came across a case yesterday in which his court had no jurisdiction. T. L. McLaurin and Amos McLaurin, well-to-do colored men of Masonboro township, both claim a house and tract of land and the first name secured a writ of ejectment to dispossess the brother. The one in possession employed Hon. Jno. D. Bellamy to look after his interests and upon Mr. Bellamy's motion the action was dismissed on the ground of no jurisdiction and a suit will be brought in the Superior Court to settle the differences between the two men.

PRODUCE TRAVELLERS.

Annual Meeting in Wilmington Next Saturday—The Entertainment.

(Truckers' Journal.)

The American Fruit and Produce Travellers' Association will hold its eighth annual meeting in Wilmington on Saturday, April 21st. From all indications the attendance will be unusually large, as the membership of the organization will be in this territory at that time to witness and participate in the initial movement of the strawberry shipments. The crop will be large this year, and the boys are already arriving on every train, many of them being already on the ground, where they have been working the lettuce movement earlier in the season.

Wilmington always extends a warm greeting and cordial welcome to the members of the American Fruit and Produce Travellers' Association, and upon the occasion of the eighth annual meeting of that organization here, the business men of Wilmington will tender the visitors an oyster roast at the Lighthouse in the afternoon and a smoker at Lumina at night. Both will be quite elaborate affairs and much above the average, all the side issues to a genuine, thoroughbred oyster roast being brought into play. The entertainment will be first-class from beginning to end, the oyster roast and smoker being interspersed with a business session of the Association.

St. Mark's P. E Church.

The Easter services at St. Mark's church (colored) to-day will be especially elaborate and pretty. Music will be rendered by a vested choir of thirty voices. Holy Communion (Choral) will be celebrated at 5 A. M. with second celebration at 9 A. M. Morning Prayer and sermon at 11 A. M.; Sunday School at 3:30 P. M., and children's vespers at 4 P. M. The latter service will be for the singing of Easter carols and presentation of Sunday School offering. The choral evensong will take place at 7:45 P. M., with an organ recital after the service. Rev. E. Robert Bennett, D. D., is rector of the parish and will have charge of all the services.

An Apology.

We owe an apology to a good many of our patrons, who will be disappointed at not getting their Hats for Easter Sunday. Our Trade this season has surpassed any heretofore, and we have had our force working day and night trying to satisfy our customers and we hope those who were disappointed will appreciate our position and that we tried to do our best. Thanking all for their liberal patronage and leniency and trusting to always merit a share of their liberal patronage . We remain, Taylor Bazaar. **

Chicken and Dog Case

Justice Bornemann has his own unique way of disposing of all sorts of complex situations that find their way into his court. Yesterday Amos King was indicted by Rebecca Johnson for damage to personal property. Both are colored and live next door to each other in the southern part of the city. The woman claimed King's dog came over into her yard and ate some of her chickens. The two litigants faced each other in a conciliatory mood in court. Both were at church at the time the bad dog did the damage and it was finally agreed that King would dispose of the canine and pay for the chickens while the woman said she would arrange to settle up the court costs.

Easter Sunday at Y. M. C. A.

The usual services will be conducted at the Y. M. C. A. to-day and both will be especially interesting. Dr. A. D. MOUNT VESUVIUS VERITABLE HELL

Proffesor Mateucci Director of the Royal Observatory Talks With Associated Press

VOLCANO'S TERRIFYING ACTS

Monster Eruption Began last Sunday Morning at 3 O'Clock—Mountain Groaned and Explosion Threw Stones 2,500 Feet High.

By Cable to The Morning Star.

Naples, April 14.—The Associated Press to-day succeeded in reaching the highest habitable point on Vesuvius, where Professor Matteucci, director of the Royal Observatory, has courageouly held his post throughout the eruption. The noted scientist was found to be comparatively calm and undisturbed by his recent fearful experiences.

For three days Prof. Matteucci and his little band were cut off from the outside world. Their provisions ran low and their rations consisted of cheese, bread and dried onions until Prof. Matteucci's urgent telegraphic appeals led a venturesome guide to push through ou Friday with a stock of supplies for their relief. Meantime the professor had kept at his instruments taking observations and making calculations day and night while a perfect inferno raged around him.

The portico where he stood was knee deep in ashes which had to be swept aside to make a footway. From the observatory terrace, to which narrow paths had been cut through the ashes, the correspondent looked out over an ocean of ashes and twisted rivers of lava, while Vesuvius rose grimly in a mantle of ashes and shrouded with dark vapors rising like a gigantic fan. Professor Matteucci was asked to tell in his own way the story of the cataclysm from the outset. This is readily consented to do, and, speaking in good French, gave the following detailed narrative:

"I first observed Mount Vesuvius giving signs about a month ago when the lava began to overflow, taking a southwest direction. This gradully increased as several small lava streams came from the summit, meeting the other streams which burst from the lower strata. It was this that overwhelmed Boscotrecase. Throughout the lava discharge the volcano was comparatively quiet and without electrical phenomena or explosions. The only ominous sign was the advancing wave of lava and the cinders forming an enormous cloud in the shape of a pine tree over the crater.

"Our really terrible period came at 3 o'clock Sunday morning and lasted until 8 o'clock. The mountain which hitherto had been silent, suddenly gave out a deafening roar, and a great rent was made in its cone. Huge sold rocks were hurled skyward. Some of them fell near the observatory, threatening the crash in the roof; but some of them fell far outside the observatory zone. There was no scoria in this first discharge, but solid bullet-like stones which cut the roof and damaged the windows."

Prof. Matteucci employed his hands as well as his voice in order to depict the montinuous mass of stones rising like bombs and roman candles.

"At midnight of Saturday," said Pro-Matteucci, "I ordered the women and children of the household removed. This was just before the rain of huge stones began, and I was then left with Prof. Perret, of New York, my American assistant, and two domestics. There was scarcely any eating and all domestic was abandoned. We snatched a few bites now and then; most of the time I ate right here," and the observer pointed to the remains of a recent meal on the deck in his study.

"Throughout Sunday the enormous blocks of stone rose to a height of 2,500 feet from the crater, while ashes and sand were thrown much higher, but towards Monday the terrible shocks of earthquake gradully diminished. One of the worst features of the eruption was the unusual extent of the electrical phenomena, the darkness being broken by vivid flashes of lightning, giving the sky a blood-like color, with short, heavy peals of thunder interspersed. These moments were terrible—very terrible. Yes, it was a veritable hell."

Asked concerning Mount Vesuvius in the future, Prof. Matteucci replied: "I am unable to tell with any degree of certainty. I sincerely hope this eruption is over, but who can tell whether another terrible convulsion may not come during the next minute. However, all my indications point to a period of calm for the next few days and therefore I am hopeful. But I was hopeful last night, although a serious explosion occurred at 10 o'clock in the evening without any warning."

As he returned to the portico Vesuvius gave another deep groan, ending with a fearful explosion which blew off a portion of its new cone.

"See," exclaimed the professor, "the eruption may be resumed at any moment. That explosion rent the westerly cone."

Mount Vesuvius presented a majestice spectacle from this point of vantage at the observatory. This was far inside the outer circle of smoke which hides the volcano from Naples. The great monster stood out clearly under the bright sunlight. It was entirely white, like a snow covered mountain, for the ashes had turned its former deep green color.

It's contour also had changed. The gigantic, jagged cone no longer rose like the setting of an enormous jewelled ring. Instead the top now forms a graceful curve, harmonizing the gradual slope of the foot hills. The white surface of the mountain is rent here and ther as if with a gian saber stroke leaving gulches through which lava courses. The wrecked remnant of the funicular railway lay at the bottom of one of these gulches, some of the twisted cable protruding from the ashes.

TWO NEGROES ROASTED FOR TERRIBLE CRIME.

Hanged to Goddess of Berty and Three Thousand People Watch Them Burn—Guilt Doubted.

By Wire to The Morning Star.

Springfield. Missouri, April 14.—A mok of 5,000 persons tonight tore down the jail and took Horace Duncan and James Copeland, negroes, hanged them to an electric tower in the center of the public square and built a fire under the suspended men. The negroes both under 21 years of age were in jail charged with assaulting Mabel. Edmondson, a white girl, last night.

The mob used telephone poles and sledge hammers to tear the jail to pieces. It is a mile from the jail to the square and the mob marched down one of the principal streets shouting and firing pistols.

Circuit Attorney Arthur Sager, of St. Louis, was a witness of the tragedy He slipped into the cellar of the jail and cut off the gas, hoping to confuse the mob but he was too late.

Last night while Miss Edmondson and a young man named Cooper were out riding in a buggy they were stopped by two negroes who beat Cooper into unconsciousness and dragged Miss Edmondson into the woods by the roadside and assaulted her. Duncan and Copeland was arrested on suspicion but there was no evidence against them.

GREENE AND GAYNOR CASE.

Prisoners Sent to Jail at Macon for Safe-Keeping.

By Wire to The Morning Star.

Savannah, Ga., April 14.—Judge Speer passed an order in the United States court this afternoon directing that Benjamin D. Greene and John F. Gaynor be taken to Macon for safekeeping pending their transfer to the penitentiary at Atlanta. They left tonight accompanied by United States Marshal George F. White and deputies. The defendants when informed of the order declined to say further than that they stood ready to comply with the orders of the court. The order, which was passed upon motion of the United States District Attorney recites as reasons for the transfer, that Macon is the headquarters of the marshal, and that it is desirable that the prisoners be under his personal care until the expiration of the twenty days that under the original order of the court in passing sentence, must elapse before their transfer to the Federal prison at Atlanta. The United States court was adjourned to-day.

—The man who introduced in the Texas legislature a bill to make it a misdemeanor to apply the title of colonel or major to any gentleman who has not a legal and constitutional claim upon that handle to his name, would no doubt if occasion offered make it unlawful to wear lace upon any garment because lace neither hides nakedness nor keeps one warm. Such iconoclastic ideas should be universally condemned. — Greensboro Industrial News.

Easter Trade.

We want to thank the generous public for their liberal patronage through the Easter week.

Our business is even a surprise to us. Last year we did very, very well and we thought then it would be a hard matter to break that record, but looking over and figuring up the sales the year past, 1905, and coming it with the Easter week of 1906, we find we are 33 1-3 per cent. better which is a most remarkable increase. We have tried hard to please the many customers we have had and I want to say that if we have caused any one any uneasiness or delay in getting their goods, it is not our fault. It was simply our inability to secure sufficient good help to do the work in the given space of time.

You remember, we trim hats free, work ten milliners with work plied on each side of each one of them, all free to our customers.

To buy your hats from Gaylord is a saving to you.

We sell you the material cheaper than others and trim your hats for nothing. If our work room is not large enough, we can tear down the walsl and build it larger. We want r busines for Monday morning. We wil have a quantity of new hats, new ribbons, new owers and a full line of colors in malines and chiffons.

Those who have not gotten their hats for 7aster can be suited to-day, even better than last week. You will have more time to make your selection and we feel positively sure we can please you.

Men's and Boys' Clothing: We have placed on sale to-day the greatest selection of Boys' washable clothing from 2 to 10 years old, probably ever shown in the city.

These little boys' suits are well made, trimmed up nicely; have all the appearance of store made clothes, but a certain air that home made clothes do not have, little extra pockets and the price of these suits are much cheaper than you can have them made for. Get a Boys' Washable Suit at 45c, 50c, 75c, $1.00 and on up to $2.50 a suit.

A splendid selection of Men's and Boys' straw hats, as many as 3,000 pairs of men's and boys' odd pants and men's suits with all the latest fads and styles, coats of the Fifth Avenue cut. In fact, anything in men's and boys' clothing for which you can ask.

Men's White Duck Pants from 75c to $1.50 a pair, waiters and barbers white coats from 75c to $2.00 each.

Men's new neckwear in fashionable colors and styles, for 25c to 50c each.

A new shipment of new collars of the newest styles, elastic seam drawers for men, nice quality, the best values at 45c. In fact our clothing stock is complete. This is a large store and well filled with bargains for you.

We are sole agents for the Head Light Overalls, the best overall made.

....We also carry a full line of suit cases, grips and telescopes in our cloth ing department and a big stock of gent's furnishings of every grade and kind.

....Let us thank you again for your liberal Easter trade and remember we appreciate all yau give us by purchasing your card and give you presents freem.

An Able Address.

Delectricable and superfeminate hearers—Lend me your ears for a short space of no time at all most hardly, and I will expatiate my ideas right down upon your caputs as thick as brickbats upon a meetin' house; in prose and in rhymes, about matters and things and curious times. I am the individual that superobstructs the extremity of the North Pole with my old hat, to prevent the winds from escaping and congealing your liberalities. They used to have these amphibious, sudiferous, great big four-horse standing collars, high as the hind-end of a Virginia tobacco wagon, and then they had an institution called Byron, wide enough to reach from Phil's kitchen to Hannah's cotton patch.

Cigars they'd smoke and glasses dash,
Empty pockets had no cash;
Fine kid gloves that saved their hands from dirt.
And stately studs stabled on their shirt.

The above is a silly jumble of big words (?) and nonsense, but the following is the rumble of good, hard, common sense: There is no surer or safer investment for a hundred per cent. profit in a short time than that offered in Carolina Place by the American Suburban Corporation, 315 Southern Building. Nice high building lots, only $200 to $275 each; $10 cash, and $7.50 to $5.00 per month. No interest. Handsome improvements — water, granolithic or stone sidewalks, shade trees, etc. Healthy restriction for the protection of buyers, and looking to the making of Carolina Place a first-class white resident section. Only a few beautiful high lots left—intrinsically the cheapest and safest of the addition, because all the other hundreds of lots having been sold the proposition is no longer an experiment, but is now assured beyond all preadventure. Don't fail to get on the band wagon at once. Call at the office, or vogorously operate—Hello No. 1341 and make known your troubles.

THE AFTER-EFFECTS

Distinguish Schlitz beer from the common.

Other beer may be equal to Schlitz in your liking. But perhaps it is green beer—insufficiently aged; and the after-effect is biliousness.

Or it may be impure, unfiltered, unsterilized; and the after-effect unhealthful. More than half the cost of our brewing is spent to insure purity.

That is how important we deem it.

By G. N. H.

GLORIOUS EASTER WEEK CROWDED WITH EVENTS.

After a respite of forty days from he fancies and frivolities of the every ay life, Wilmington society will relax. his Easter week to a perfect round of ities and pleasures. Included in the ocial whirl will be the several mar- iages hereinafter alluded to, the Eas- er germans of the two dancing clubs nd a variety of other entertainments. But chief of them all will be the im- posing ceremonies attending the lay- ng of the corner-stone of the splendid nonument to Revolutionary heroes, the neeting of the Society of the Cincin- nati as guests of honor of the Colonial Dames and the annual pilgrimage of he Society to the ruins of Old St. 'hillips' church upon the same occas- on.

The monument to be erected by the Dames to the memory of the Colonial nd Revolutionary heroes of the low- r Cape Fear will be a beautiful shaft bout thirty feet high, of the finest uality of Westerly granite, which is uarried only in Connecticut. The ontract for the monument has been warded to Delahunty, of Philadelphia, hose work compares most favorably ith that of any in the country. Some f the handsomest shafts in Oakdale re by this noted artist and the monu- ent which will receive his personal are will be the first public one erected this city.

The shaft will rest on three bases nd on the sides of the bases will be rved in raised letters "To the He- es of Cape Fear." and the names of ven heroes. On the Dia, in sunk tters, "Wilmington incorporated 739," and on one side, "Moderation eases to Be a Virtue When the Liber es of the British Subjects are in anger," "Moses John DeRosset, ayor," on the other side, "The North arolina Society of the Colonial Dames America have erected this monu- ent to the memory of the Colonial nd Revolutionary Heroes of the Low- Cape Fear;" on the fourth side, The Cape Fear first explored 1663, rst settlement at Old Town, 1665. Per- anent settlement at Brunswick, 23."

The monument will be an ornament the city and while the Dames have arded the contract, the necessary nount for its cost has not yet been ised, the Dames confidently expect generous and appreciative public ill make voluntary contribution to is end. The erection of the monu- ent has been the specific work of e society for the past twelve years d by working in and out of season, has raised a sufficient amount to stify them in placing the order. The onument will be completed and ready be set up in about six months and is to be hoped that a sufficient nount will be voluntarily contribut- to relieve the noble and self-sacri- ing band of women from any em- rrassment in the matter.

The ceremony of laying the corner- one of the monument will be with l Masonic rites and honors by the orshipful Grand Master, Judge Fran- D. Porch parties are very popular in some sections of the county during the pleasant days of Spring and Sum- mer. The society editor attended one last Summer as "special guest." The front porch or piazza was closed in by reed screens, which shed a suf- fused shade of light; on the floor were pretty rugs and here and there were handsome palms and geraniums in bloom, giving a comfortable home-like appearance. The lady guests arrived, each carrying a handsome sewing bag of pretty colored silk. When the guests had been comfortably seated the sew- ing bags were opened, exposing to view dainty articles and pretty little scissors, emeries, tape lines, and thim- bles. The guests began to talk, then talked some more, and one lady actu- ally started to sew, when refreshments were served and shortly after the hos- tess received assurance of a pleasant morning and the party was at an end.

Elizabethtown, N. C. April 10.—One of the prettiest home weddings that has been solemnized in Eastern Caro- lina this season occurred at St. Paul's, Robeson county, Wednesday evening, March 28, at four o'clock. Joseph Evans, of the Presby- terian church. The bride was becom- ingly attired in gray and carried white carnations. The ceremony was wit- nessed by a number of relatives and friends of the bride and groom. The numerous and costly presents received attest the high esteem in which this popular couple are held. The bride is a daughter of Mr. Archibald Tyson, of St. Pauls, and is a most amiable and charming young lady and is held in the highest esteem by a large circle of friends and acquaintances. The central of Georgia Railway telegraphers and station agents have obtained an advance of an average of 15 per cent. salary through the efforts of a committee representing the Order of Railway Telegraphers. The average increase yearly is about $8,000 and the number of employes concerned is about 350.

Kinston Free Press: The force laying the new 60 pound rail on the A. & N. C. Railroad have reached the city heading towards Goldsboro from Morehead. Forty miles of the old rail which is taken up, has been sold to the Kinston & Carolina Railroad Co., to put down on the road from Kinston to Duplin county, and 14 miles of it has been sold to Hines Bros. Lumber Co., for use on their Snow Hill road."

Savannah News: "Mr. E. Byron Dunshee traveling representative of the Atlantic Coast Line, is at the Pulaski on his way home after the season spent in Tampa and Havana. Mr. Dunshee says the Tampa Bay Hotel, under the new management, has had a very successful season, and the season at Havana has never been better. The steamer line of the Peninsular and Occidental Company has done an excellent business."

Kinston Free Press: "The Kinston & Carolina Railroad Co., is making important additions to its equipment and will vastly improve its road and service. Fifteen new flat cars have been received and are being taken across the river to the terminus at the log landing to be put into commission at once. Five flat cars and two box cars have been purchased from the A. & N. C. Co., also, and 40 miles of the latter company's old rail, which is much heavier than that now in use on the Kinston-Carolina. It is said the Kinston-Carolina will be extended through Duplin to the Atlantic Coast Line at Magnolia."

Charlotte Observer: "Mr. Alfred Walter, formerly of the South & Western railroad, who was elected, several days ago, president of the Seaboard Air Line Company, succeeding Mr. J. M. Barr, resigned, will take up his new work April 30th. A well-known Charlotte citizen stated to an Observer reporter yesterday that he expected some interesting news relative to the South & Western road, after Mr. Walter assumes charge of the Seaboard. Anything relative to the South & Western will be of interest to Charlotte people, in view of the fact that the new line will give to the city direct connection with the markets of the middle West, as well as the coal and iron fields of east Tennessee, Kentucky and West Virginia.

* * * * *

It is rumored that Mr. Alfred Walter in assuming control of the Seaboard Air Line, as president, succeeding Mr. J. M. Barr, will inaugurate the following changes: Mr. C. H. Hix, formerly general superintendent, will become general manager; Mr. W. R. Hudson, formerly superintendent of the First division, will become general superintendent of transportation; Mr. W. R. Shea, superintendent of the Sixth division, will become superintendent of the First division, and Mr. E. J. Cunningham, general car service agent, will become superintendent of the Sixth division. This is taken as with a grain of salt, but the developments are looked for with considerable interest.

Savannah News: Following the sudden death Saturday of Elisha Small, a negro who had been employed at the Atlantic Coast Line shops, no less than five women have turned up, each claiming to be his wife. The dead man's mother and sister, with whom he lived, says he was never married. An insurance policy for $250, which the negro carried in the company operated for Coast Line employes, is probably responsible for the plurality of post-mortem wives. His relatives, who ought to know, assert positively he had no wife. Small lived not far from the shops and, though he had been sick for some time, he went there Saturday to draw his salary. He had just drawn his money and had not gone more than fifty feet, when he dropped dead. The proof of death, policy, etc., will have to be sent to Wilmington, the headquarters of the Coast Line, before the claim is paid and there is practically no chance of its going to the wrong party. If the man had no wife, as his mother and sister claim, they will get the money.

At The Theatre.

If the engagement of the New York Symphony Orchestra proves as successful as present indications suggest, there is every likelihood of an annual visit of the famous organization being assured. Mr. Damrosch and his players will be heard at the Academy of Music, April 24th, under the direction of Loudon G. Charlton, the well known New York manager. The programme which has been announced is unusually attractive, while the solo features are bound to arouse more than ordinary interest. The Damrosch's concertmeister on the present tour is Mr. Alexander Saslavsky, a violinist of rare attainments. Saslavsky is a Prussian by birth, a graduate of the Imperial Conservatory, Vienna, and he has been associated with the famous orchestra leader since coming to this country ten years ago. His solo playing is marked by fire and dash and with all the Slav's innate sense of expression. Another member of the organization who frequently appears as soloist is Mr. Leo Schulz, 'cellist, a Polish musician who came to America when Nikisch first appeared as leader of the Boston Symphony.

Upon the success of the forthcoming appearance of the New York Symphony Orchestra, future visits of Mr. Walter Damrosch's famous organization largely depend. The present supplental tour is in a measure experimental and, if well supported, it is likely that a similar trip will be made annually. The New York Symphony's tour is under the direction of London G. Charlton, who is prominently identified with well known artists, and under his management plans are being considered for a more extended trip next Spring. New York is justly proud of the splendid organization which has resulted from Mr. Damrosch's years of effort, and the fact that the orchestra is now endowed indicates the impression the worthiness of the venture has made upon public-spirited citizens of the metropolis. The soloists whom Mr. Damrosch will take on the present tour are of the foremost rank, and his programmes have been arranged with greatest care. Local interest in the engagement is marked.

MR. WALTER DAMROSCH

The fame of the organization which Mr. Damrosch has brought to such a high degree of merit, extends the breadth of the country, and its rivals are extremely few. It has always been the aim of this distinguished conductor to offer only the best of musical literature, and no temptation in the form of ephemeral popularity has served to sway him from his purpose. Under adverse conditions the orchestra steadily grew and improved in quality and size until at last came the rewards, of merits and patience, and now, with generous support, Mr. Damrosch can present an organization of which the metropolis may well be proud. The present tour, which includes the larger cities of this section of the country, embraces twenty appearances.

—"I think that my speech on this question will have some effect." "It has already had an effect," answered Senator Sorghum. "You have caused too or more questions to grow where there was but one before."—Washington Star.

An Able Address.

Delectricable and superfeminate hearers—Lend me your ears for a short space of no time at all most hardly, and I will expatiate my ideas right down upon your caputs as thick as brickbats upon a meetin' house; in prose and in rhymes, about matters and things and curious times. I am the individual that superobstructs the extremity of the North Pole with my old hat, to prevent the winds from escaping and congealing your liberalities. They used to have these amphibious, sudiferous, great big four-horse standing collars, high as the hind-end of a Virginia tobacco wagon, and then they had an institution called Byron, wide enough to reach from Phil's kitchen to Hannah's cotton patch.

Cigars they'd smoke and glasses dash,
Empty pockets had no cash;
Fine kid gloves that saved their hands from dirt.
And stately studs stabled on their shirt.

The above is a silly jumble of big words (?) and nonsense, but the following is the rumble of good, hard, common sense: There is no surer or safer investment for a hundred per cent. profit in a short time than that offered in Carolina Place by the American Suburban Corporation, 315 Southern Building. Nice high building lots, only $200 to $275 each; $10 cash, and $7.50 to $5.00 per month. No interest. Handsome improvements — water, granolithic or stone sidewalks, shade trees, etc. Healthy restriction for the protection of buyers, and looking to the making of Carolina Place a first-class white resident section. Only a few beautiful high lots left—intrinsically the cheapest and safest of the addition, because all the other hundreds of lots having been sold the proposition is no longer an experiment, but is now assured beyond all preadventure. Don't fail to get on the band wagon at once. Call at the office, or vogorously operate—Hello No. 1341 and make known your troubles.

WORKS WONDERS.

A Wonderful Compound.. Cures Piles, Eczema, Skin Itching, Skin Eruptions, Cuts and Bruises.

Doan's Ointment is the best skin treatment, and the cheapest, because so little is required to cure. It cures piles after years of torture. It cures obstinate cases of eczema. It cures all skin itching. It cures skin eruptions. It heals cuts, bruises, scratches and a brasions without leaving a scar. It cures permanently. Wilmington testimony proves it.

J. S. King, clerk on Market street, residing at 815 Orange streets, says: "I used Doan's Ointment and found it to be a great remedy for itching hemorrhoids. It acted like a charm in my case. I tried all kinds of remedies, but until I used Doan's Ointment I could get nothing to give me positive relief. It is a splendid preparation and you are welcome to use my name as one who says so. I obtained it at R. R. Bellamy's drug store."

SIX KILLED ON BATTLESHIP

Frigotful Explosion on the Kearsage During Drill in Caribbean Sea

LT. HUDGINS AMONG VICTIMS

Lieutenant Graem Probably Fatally Injured—Officers Leave Wives—Ship Not Injured—Dreadful Accident Occurred Friday.

By Wire to the Morning Star.

Washington, April 14.—Two years to a day later than the fatal Missouri disaster, and as every sailor immediately re-called on a Friday and the 13th of the month, six men were done to death in the forward turret of the battleship Kearsarge by one of those accidents which acquire additional terror for sailors because of their obscure origin, and almost impossibility of prevention.

The Atlantic fleet, the strongest fleet America has ever owned, had been for weeks engaged in the most severe drills in the waters of the Carribbean sea, culminating in the quarterly target practice. This practice was just about concluding with most satisfactory results up to yesterday and it was confidently expected at the Department, upon the basis of preliminary reports received, that all records would be broken in the matter of rapidity of fire and efficiency of the qgunners. But to-day just as the close of the week's work at the Department, came a cablegram from Rear Admiral Evans, the commanding chief of the Atlantic fleet telling of a dreadful accident on one of his best ships, the Kearsarge. The news came from Caimanera, a little cable station at the mouth of Guantanamo bay, indicating that the Kearsarge itself had arrived at that place.

The message read as follows:

"Caimanera, April 14, 1906.

"Secretary of Navy, Washington, D. C:

"On April 13th, about 3:15 P. M., shortly after completion of the target practice of the Kearsarge, forward turret, while the powder was going below, three sections of a thirteen charge of powder were ignited. Charge of powder in other lift just below and one section inside 13-inch remained intact. Cause not yet determined, nor accident accountability. Matter is being investigated. Lieutenant Joseph W. Graeme, gun umpire, has been sent to the Maryland in a very critical state, about 9 P. M. The following have since died:

"Lieutenant Hudgins, turret officer.

"Peter Noberg, gunner's mate.

"Theodore Naegely, seaman.

"Anton O. Thorson, ordinary seaman.

"Julius A. Koester, turret captain, first class.

"Ellis H. Athey, seaman.

"The following was dangerously injured by the accident, recovery doubtful: W. King, ordinary seaman.

"Will bury dead at Guantanamo. Vessel uninjured.

The following message of condolence was telegraphed to the commander-in-chief of the fleet, Admiral Evans, by Acting Secretary Newberry:

"Washington, April 14, 1906.

"Evans, Maine, Naval Station, Caimanera:

"The Department is grieved by the unfortunate accident on board the Kearsarge, which occasioned the death and injury in the performance of duty, of brave officers and men in the navy, and it extends its hearfelt sympathy to the injured and wishes for a speedy recovery from their wounds. Spare no effort to ease the sufferings of the injured in every possible manner and show every honor to the dead.

(Signed) "NEWBERY."

Lieutenant John H. Hudgins, the only officer who lost his life by the explosion on the Kearsarge, was a native of Virginia and was appointed to the Naval Academy from that State September 8, 1890. He was assigned to the engineer corps upon leaving the Academy in 1894 because of his particular aptitude for engineering and his mechanical skill. He took an especial interest in the subject of wireless telegraph and became expert in that line. He was personally identified with the development of the wireless system as now in use by the navy having been attached to the bureau of equipment during the experiments and inauguration of the system. After a short service in 1895 he was sent to London for a special course of instruction and while in that city was attached to the American embassy. Since then he has served respectively on the New Orleans, Glacier, Manila and Petrel, and in October, 1903, began his service on the Kearsarge. He reached the grade of lieutenant in September 1901. Lieutenant Hudgins' wife resides with her parents in this city.

Lieutenant Graeme was appointed to the Naval Academy from Pennsylvania. He is a son of Thomas Graeme, of Wilkesbarre, Pa. He is married and his wife, according to the Department's information, is with his father.

Immediately upon receiving the cablegram from Admiral Evans, Acting Secretary Newberry carried it to the President at the White House and was authorized to send the foregoing expression of sympathy. He also communicated the sad news to Secretary Bonaparte at his home in Baltimore over the long distance telephone.

The feeling of the officers at the Navy Department, after reading the cablegram, was one of surprise that the accident had resulted in so little loss of life. The Kearsarge's forward turret where it occurred is of the superposed type, in other words an 8-inch gun turret sat upon the top of the thirteen inch gun turret where the accident occurred. In the lower turret were twenty-four men and in the upper turret sixteen. An ammunition hoist connected the two and had the powder in the tower hoist exploded probably every man in the two turrets would have been killed. The full charge of powder for a thirteen-inch gun is too large to be handled by any one man, so it is divided into sections in canvas bags and it was three of these, probably just enough to fill one compartment in the ammunition hoist which ignited. As the cablegram states the cause of the ignition was not known, but the first belief at the Navy Department is that in clearing up the turret and throwing open the breeches of the big guns after the last round had been fired some small bit of smouldering canvas bagging was blown out of one of the guns as the big breech block was swung around only to fall upon the loaded ammunition hoist where the surplus powder was being returned to the magazines below.

Lieutenant Graeme, who was mentioned as being in a very critical state at the time the cablegram was sent, did not belong to the company of the Kearsarge. He was attached to the Maryland and was aboard the Kearsarge in the capacity of an umpire to check off and record the performance of the gunners, a very necessary function in view of the keen spirit of rivalry obtaining between the crews of the big battleships in the matter of efficiency at target practice.

Naval regulations prescribe exactly what is to be done in a case of this kind. The admiral in command orders immediately a court of inquiry to ascertain the cause of the accident and places the responsibility therefor, and a court martial will follow if any one is found at fault.

PRESIDENT ROSEVELT DELIVERS AN ADDRESS.

Laying of Corner-Stone of Handsome Official Building for House of Representatives Yesterday.

By Wire to The Morning Star.

Washington, April 14.—To the many memoriable events which cluster about the making of the nation's capital, one other must be added—the laying of the corner-stone of the office building for the House of Representatives, with solemn Masonic ceremonies, this afternoon.

The occasion was made notable by the presence of the President of the United States and many of his cabinet; by the Supreme Court; by the representatives of foreign governments; by Senate and House of Representatives and a large proportion of Washington's population. The day was ideal for such an important ceremony, and without so much as even a trifling delay the immense stone which occupies the notheast corner of the building was placed in position with the ancient ceremonial of the Masonic faith.

President Roosevelt accompanied by a number of his cabinet and escortedby the office building commission, Speaker Joseph G. Cannon, Representative W. P. Hepburn, of Iowa and ex-Representative James D. Richardson, of Tennessee, arrived comparatively early. When the President came into view of the immense audience, a roar of kindly welcome greeted him. Immediately after the arrival of the President, the Senate of the United State with Vive-President Fairbanks at their head, entered the stand reserved for them, followed by a large membership of the House of Representatives.

On the arrival of the Grand Lodge of Masons of the District of Columbia, with Walter A. Brown, Grand Master, at their head, the ceremony of laying the corner-stone began, the United States marine band with a fanfare of trumpets announcing the hour set for the exercises.

The Grand Chaplain of the Grand Lodge prayed for the American people and its present Chief Executive. A hermentically sealed copper box containing an inside copper box with glass top was then placed in position so that the stone would completely envelop it.

As the stone was lowered on its foundation the Marine bank played the intermezzo for Cavalleria Rusticana. The corn, wine and oil were then in turn poured upon the stone by the Grand Master according to ancient custom.

Following these rites the Grand Master Walter A. Brown, delivered an address.

An instrumental selection followed and then the President and the Speaker of the House of Representatives entered the President's box. Speaker Cannon introduced the President briefly.

It seems a minute or more before the President was permitted to speak. He was in splendid voice and throughout his address hearty and long continued applause punctuated the telling periods.

MAXIM GORKY MAD AS HORNET

New York Paper Declares Woman Accompanying Him is Not His Wife

SAID TO BE RUSSIAN ACTRESS

Slimy Slander and Dishonor to American Press—Angrily Forbade Madame Groky to Read the Newspaper.

By Wire to The Morning Star.

New York, April 14.—When Maxim Gorky arrived in this city last Tuesday he stated to the immigration officials that he was accompanied by Madame Gorky. This morning the statement was published that his companion was not his legal wife, who with his children, remains in Russia. As a result of this publication, Gorky today issued a statement which translated reads as follows:

"I think this disagreeable act against me could not have come from the American people. My respect for them does not allow me to suspect that they lack so much courtesy in their treatment of women. I thing that this dirt is conspired by the friends of the Russian government. My wife is my wife—the wife of Maxim Gorky. She and I, we both consider it the lowest to go into any explanation about this. Every one may say about us what he pleases. For us remains to overlook the gossip of others. The best people of all lands will be with us.

(Signed) "MAXIM GORKY."

The published story went on to say that the Madame Gorky who is now with the author is Andreieva, a Russian actress, with whom, it is stated, he has lived since his separation from his wife about three years ago. The explanation was made that being unable to secure a divorce in Russia because of the strong official feeling against him, Gorky secured a divorce in Finland and was married to Andreieva before a notary. When aproached on this subject today, Gorky said:

"The publication of such a libel is a dishonor to the American press, and I am surprised that in a country famed for its love of fair play and its reverence for women, such a slimy slander as this should have gained credence. She is my wife. No law that was ever devised or made by man can make her more so than she is now. The insinuation that the relations existing between us are illicit is a base calumny. Never was union between man and woman more holy and moral than that of ours."

Madame Gorky tried to appease her husband at this point, but he struck the copy of the paper in which the defamatory article appeared and cried:

"A lie travels fast, and I must overtake this one before it has gone too far. I will prepare a signed statement for the press and see if right and justice prevail in America."

Madame Gorky sought to have the reporter translate the article in question to her but Gorky violently tore the paper from his hand, saying:

"I forbid you to read this horror."

The Gorky party left the Hotel Belle Claire today at the request of the proprietor, and went to the residence of H. Gaylord Wilshire in West 93rd street as the guests of Mr. Wilshire.

Gorky's Big Bluff

St. Petersburg, April 14.—Madame Andreieva, who is said to have accompanied Maxim Gorky to the United States, is one of the best known actresses in Russia. Up to a few months ago no divorce from his wife had been granted Gorky, but it is alleged his relations with her have been severed, though he is still supporting her and their two children in St. Petersburg. It is also said that Madame Gorky fully understood the relations existing between M. Gorky and Mme Andreieva, but that nevertheless she was extremely devoted to Gorky. After the tragedy of "Red Sunday," Gorky is alleged to have been with Madame Andeieva when he was taken into custody and brought to the fortress of St. Peter and St. Paul. Mme Gorky then bent her very energy to secure his release. The night he was released Mme Gorky saw him only a few moments and it is said he then returned to Riga, where he met Mme Andreieva.

War! War! War!

Forty two years ago our land was being devastated by a fratricidal war, and what is now Carolina Place was being thrown up and scarred by intrenchments for the protection of an army engaged in bloody conflict against the invading foe. But now how changed the scene! The army of laborers now equally busy on the same spot, are filling up the intrenchments, grading streets, running water pipes and laying side walks, preparatory to making the lots in Carolina Place the sites of peaceful and happy homes. Good building lots are going at $200 to $275—only $10 cash and $5.00 to $7.50 per month. No interest. Have you bought yet? If not do not lose another day, but buy at once while the best lots are selling. apr17-tf**
